PERSONAL PROFILE

I am a dedicated Software Engineering Technician with proven skills and abilities in this field. An essential part of my development is a work ethic that consistently engages the inputs of others, staying abreast of changes in technology and collaboration of ideas. My goal is to be a positive addition to any team and an integral asset to the organization. I have also garnered a compelling, on-going and ever-evolving knowledge-base in a dynamic array of areas that deal with Leadership, Team Building, Time Management, Goal-Setting, Self-Motivation, Mindset and Workplace Excellence. Moreover, I am deeply proficient in the strong application of various industry-centric strategies, guidelines, tasks, procedures and approaches along with polished theoretical and practical / hands on skills while working in TED co.

SUMMARY OF QUALIFICATIONS

- Holder of Honours degree in software engineering from centennial college.
 - Diploma In software engineering
 - Knowledge in Programming, database and testing.
-
- ✓ Knowledge in testing
 - ✓ Knowledge in coding
 - ✓ Good communication skill
 - ✓ Experience with Visual studio and Beta codes
 - ✓ Excellent skills in software development and designs
 - ✓ Excellent knowledge in Java, .Net, Python and html.

Education

Diploma – Software Engineering Technology
Centennial College, Toronto, ON

September 2017 – Present

This program was conducted using small class sizes and emphasized applied knowledge with a combination of lectures followed by labs. Through team work, projects and hands on exercises I have acquired effective working skills in the area of programming in C++, html, Java and developing and designing software, software testing and database of software.

Key Achievements:

- GPA – 3
- In second semester, I had a group project in programming using Visual studio and in C language, I had one group member who later dropped out of the course and I had to do a whole project by myself. It was a project about the working structure ion given app and we have to edit it and apply in the app. So, after lots of coding and testing I was finally able to make it happen. After professor found out that I did it all by myself, he was really impressed with the output because it was perfect and bug free.

WORK HISTORY

TED software showcase
Vadodara India
Internship

May 2016 – July 2018

This experience provided me with essential skills in communication and software operations through teamwork, communication and initiative I was able to accomplish that is getting admission in some good college for further education.

TECHNICAL SKILLS SUMMARY

Operating Systems
Client/Server Applications
Microsoft Products
Other
Software
Operating systems
Other application

Windows 7 and 10, Windows XP, Linux
Visual Studio, Zip Drive, Beta Codes
MS Office, MS Project, MS Visio, MS Outlook,
coding and development
C++, Java, Visual Studio, Oracle, Teradata
IOS, Android, custom
some experience in GUI and CAD python

INTERESTS & VOLUNTEER CONTRIBUTIONS

- Regional level boxing champion
- Mayweather club member
- Volunteer at Paw club, animal rescue NGO and animal activist
